The CZARA letter is not good news. Oregon's entire Congressional delegation is voicing its opposition to pending EPA/NOAA action to withhold CWA Section 319 funds based on our intent to find that Oregon's coastal nonpoint program is lacking. This finding is being made under the terms of a previous lawsuit and settlement agreement.

Please keep this to yourself. While it's public news, I still probably shouldn't be volunteering too much outside of the federal EPA/NOAA team. Just wanted you to understand that it's definitely not good news. Pretty much nothing concerning Oregon CZARA is good news.
